

01 June 2012

To whom it may concern

With this letter we would like to thank CBRE and appointed Project Manager Maryna Kurashevych for successfully carried out Downsizing and Fit-out Project in current office of Nokia Siemens Networks Ukraine in Kyiv. The assignment was to manage the Downsizing from 1970 sq.m to 1250 sq.m, Fit-out and actual move in a very short period of time - 23 calendar days (29.04.2012 -21.05.2012).

I am happy to state that the CBRE Ukraine PM displayed full understanding of our needs and provided high quality work that met our corporate requirement and concern. In the process of the Project, some additional issues have been raised, with which CBRE dealt at an exemplary level.

Overall, Nokia Siemens Networks Ukraine was fully satisfied with the professionalism of CBRE Project Manager, flexibility and, most of all, the content and quality of the Project result. As a result the Fit-out Project and move in into the new office were completed on time.

I am therefore happy to recommend CBRE in Ukraine and Company's Project Manager Maryna Kurashevych as a reliable partner for Project Management services provision.

Yours sincerely,

Alexandr Timoshenko

Country Manager
