TO WHOM IT MAY CONSERNS

POSCO DAEWOO CORPORATION, formerly DAEWOO INTERNATIONAL CORPORATION is a Korea-based international corporation.

With over 100 global networks around the world, POSCO DAEWOO does various business with local and international customers, carrying a wide range of products including steel, metal, machinery, automotive component, Industrial electronics, steel raw material, non-ferrous metal, chemical and agro-fishery product. In addition, POSCO DAEWOO Corp. not only engages in the export and triangular trade of industrial machines and equipment, but also plays a critical role as a project organizer in the implementation of overseas development project such as power generation, railroad, ports, plants and IT facility.

Following our inquiry in May 2017, CBRE Ukraine performed property evaluation and estimated market value of portfolio of diverse assets in a very short period of time and according to RICS standards. Precise definition of market value of assets was extremely important because we based Mortgage Contract on CBRE valuation report. We considers CBRE performance professional and totally satisfied with services provided.

Reasoning above, we are ready to further cooperation with CBRE Ukraine.

Best regards,

Heo Sunghyung
Director

POSCO DAEWOO Corporation Kiev Representative Office
